EDUCATION: THE CYS-148 OF THE PRIMARY SITE OF CANDALLY INVESTED THE PRIMARY SITE OF SUBSECUENCE FROM N.A.

2. Submitted (MAY-1999) to the EMBL/GenBank/DDBJ databases.

2. I SUBMITTED (MAY-1999) to the EMBL/GenBank/DDBJ databases.

2. I SUBMITTED (MAY-1999) to the EMBL/GenBank/DDBJ databases.

2. I SUBMITION SYSTEM SITE ANTIOLIDARY WHICH CONSTITUTES AND TABALIZALS. CAN PROVIDE PROTECTION AGAINST SULFUR-CONTAINING OXIDATION SYSTEM BUT CONTAINING OXIDATION SYSTEM BUT CONTAINING OXIDATION SYSTEM BUT CONTAINING OXIDATION.

2. I SUBUNIT: HOMODIMER; DISULFIDE-LINKED, UPON OXIDATION.

2. I SUBCELLULAR LOCATION: CYCOPLASMIC.

2. I SUBCELLULAR LOCATION: CYCOPLASMIC.

3. I SUBCELLULAR LOCATION: CYCOPLASMIC.

3. I SUBCELLULAR LOCATION: CYCOPLASMIC.

3. I SUBCELLULAR LOCATION: CYCOPLASMIC.

4. (2) O(2), AND THE OXIDIZED CYS-48 (PROBABLY CYS-SOH) RAPIDLY REACTS WITH CYS-169-SH OF THE OTHER SUBUNIT TO FORM AN INTERMOLECULAR DISULFIDE. THIS DISULFIDE IS SUBSEQUENTLY REDUCED BY THIOREDOXIN.

3. INTERMOLECULAR DISULFIDE. THIS DISULFIDE IS SUBSEQUENTLY REDUCED BY THIOREDOXIN.

"Molecular characterization of the proteinase-encoding gene, pri
related to mycoparasitism by Trichoderma harzianum.";
Mol. Microbiol. 8:603-613 (1993).

-i- FUNCTION: SERINE PROTEBASE, SECRETED SPECIFICALLY DURING THE
MYCOPATAGIEL PROCESS, MHICH IS INVOLVED IN THE DEGRADATION
PHYTOPATHOGEN CELL WALLS, MEMBRANES AND OF THE PROTEINS RELE
AFTER LYSIS OF THE HOST.

-I- SUBCELLULAR LOCATION: Secreted.
-I- INDUCTION: BY MYCELIA, FUNGAL CELL WALLS, AND CHITIN, BUT ON
IN THE ABSENCE OF GLUCOSE.
-I- SINILARITY: BELONGS TO PEPTIDASE FAMILY S8.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              EMBL, 270678; CAA94548.1; --
